Abstract (en)
The housing has a frame crossed by rods of winding/time setting crown (3) and push buttons (5a, 5b), base (6) and a bezel (7). The frame is formed of inner frame (10) made of metal e.g. steel or brass, and an outer frame (20) made of inorganic material e.g. ceramic, sapphire or natural/artificial stone. The frame (10) has an upper bushing (12) with an axial annular extension stopped on a peripheral shoulder of a lower bushing (14). Each bushing has peripheral radial extensions oriented towards exterior and blocking the outer frame with less clearance by screwing the bushings.

Abstract (fr)
La carrière comprend une carrière interne métallique (10) et une carrière externe (20) réalisée en un matériau minéral naturel ou synthétique tel que la céramique. La carrière interne (10) est elle-même composée d'une bague supérieure (12) et d'une bague inférieure (14) chaque bague comportant une extension périphérique radiale (13, 15) dont les portées en regard permettent le blocage mécanique de la carrière externe (20) par exemple par vissage des deux bagues (12, 14) l'une dans l'autre.
