Abstract (en)
[origin: DE102005035749A1] Hydraulic accumulator in the form of a suction current stabilizer comprises a housing (10) with a housing part (26) receiving a separating element formed from a plunger (28) or a bellows. Preferred Features: The housing part has a fluid passage opening (36) on its free end and is fixed to the housing on its other end. The housing part has a refilling device (44) on its end facing the housing. The fluid passage opening can be closed in the housing part using the separating element.
