Abstract (en)  
[origin: EP1913860A2] A dishwasher (100) includes a tub (110) defining a washing chamber, a door (270) for opening/closing the tub, a condenser (200) provided inside the door to condense steam discharged from the tub, a fan assembly connected to the condenser, and an outside air guide for supplying outside air to the fan assembly (260). The fan assembly includes a discharge opening through which steam from inside the tub is discharged into the condenser (200).
