Abstract (en)
Electroluminescence unit has an energy source, an electronic control and an electroluminescent foil in a transparent casing. The unit has many electroluminescent foils. The forms of the electroluminescent foils may be same or different. The form of the foil is selected from the group of symbols, geometrical forms, pictures, characters or a combination of these forms. An independent claim is also included for the illuminating article.

Abstract (de)
Die Erfindung betrifft Leuchtartikel, insbesondere Transportbehältnisse und Gebrauchsgegenstände, die eine Elektrolumineszenz-Einheit aufweisen oder daraus bestehen.
