Abstract (en)  
[origin: WO2007022892A1] A test bed (10) and a method for aerodynamic measurements on an object, in particular a vehicle (12), in which a weighing plate (16) serves to support the weight of the object and is mounted on a bearing arrangement (28) relative to a fixed system (18), are characterized according to the invention in that the bearing arrangement (28) is formed with at least one magnetic bearing (30).
