Abstract (en)

[origin: EP1918122A2] The arrangement (1) has a fixing unit (19) such as bolt, for a simple coupling of a circular cutting device that comprises a transport unit for direct feeding of a cut blank (2) to the arrangement. A control system (17) is connected to the circular cutting device which can be coupled. The arrangement can be operated with or without the circular cutting device as required. The cutting device comprises a drive connected to the control system, and is transported using two wheels.
