Abstract (en)
[origin: EP1918434A1] The model chain sharpening machine has a sharpening drum (2), a transport surface arrangement, moving parallel to the axis (40) of the sharpening drum, multiple component rods (18 to 29) and a thread guide arrangement. The two component rods are arranged at periphery positions on a half of the sharpening drum, whose tangents running at an angle of 45 degree to each other.
