Abstract (en)

[origin: EP1918635A1] The mood lamp has a base frame defining a base level and connecting elements are arranged in the base frame for two triple flat fluorescent tubes (4). One of which is designed to radiate blue light, another to radiate red light and third to radiate green light. A protective cover (6) is made of transparent material, attached on the base frame. Two parallel spaced diffusor strips (7,8), made of transparent material are fitted on the base frame transverse to the longitudinal direction of the fluorescent tubes on both the sides of the mood lamp.
