Abstract (en)

[origin: WO2007012529A1] The invention relates to a method and an apparatus for drying a piece of textile (1) which is impinged upon by an air flow to evacuate moisture, a partial steam pressure in the air flow being varied. Said method and device are particularly suitable for drying a piece of textile (1) that is provided with a layered structure encompassing a semipermeable membrane (13).
