Abstract (en)

[origin: EP1921635A1] The cable has a coupling unit attached to an end with an electrical outer shield (7) in a fluid tight manner. Electrical cables (1, 2, 3) of the coupling unit comprise an electrical individual shield (5) enclosed all around and lying at an insulator (4). The coupling unit is fitted with electrical contacts (9) which are insulated against each other. The electrical cables, individual shield and the outer shield are attached to the electrical contacts.
