Abstract (en)

[origin: EP1923213A2] The unit (1) has dual printing devices (13, 14) arranged one above the other, where form cylinders (3, 4) of each dual printing device are fixedly arranged at a side frame (2) of a printing machine concerning an axis of rotation. Transmission cylinders (6-9) of each printing device are arranged in a position adjustable manner at the side frame of the printing machine concerning the axis of rotation. The form cylinders and the transmission cylinders of the printing unit are driven by a common driving motor.
