Abstract (en)

[origin: EP1923277A1] The air bag arrangement has an airbag (1) for an air bag module with a gas producer (2) to fill the airbag, and a housing that accommodates the air bag arrangement by the folded air bag. The air bag arrangement is covered by a sheet and the folded air bag are partially enclosed. The air bag is folded by a low pressure and the sheet envelopes lying close to the air bag. Independent claims are also included for the following: (1) an air bag module (2) a method for folding an air bag (3) a method for producing an air bag arrangement.
