Abstract (en)

A toothbrush (1) is described, comprising a brushing head (3), and an handle (5) connected at an end to the head (3) and equipped with an appendix (6) at another opposite end; the handle (5) is further equipped with a plurality of identifying elements (7) adapted to be placed above and/or around the appendix (6) and each one of which contains identifying signs of a user of the toothbrush (1). Holding means (9) are further provided, adapted to prevent the identifying elements (7) from going out of the appendix (6).
