Abstract (en)

[origin: EP1925726A1] The seam band (22) has filling thread groups (36, 36', 38, 38'), in which filling threads (1) of filling thread layers (30, 32) rest in a direction related to filling threads (2) of the filling thread layers in a displaceable manner in the filling thread group (36, 36'). The filling threads (1, 2) rest in another direction opposite to the direction related to the filling threads (2) in the filling thread group (38, 38'). A basic structure (24) is designed as a seam fabric, and a chaining thread runs in a band transverse direction.
