Abstract (en)

[origin: WO2007031449A1] Method for producing an ethylamine by reacting ethanol with ammonia, a primary amine or a secondary amine in the presence of hydrogen and a heterogeneous hydrogenation/dehydrogenation catalyst, wherein use is made of an ethanol which had been denatured by adding di- and/or triethylamine. Use of di- and/or triethylamine for denaturing ethanol and ethanol containing di- and/or triethylamine as denaturant.
