Abstract (en)

[origin: EP1929899A2] The table has a main table (2) and an extension table (3) which is arranged below the main table (2) and stored in the level of the main table (2). Two sides (12, 13) are provided and arranged with a rail (9), in which the main table (2) assembly is stored. The main table (2) can be lengthened with the extension table. The extension table is applied in the top level of the main table and the extension table (3) is moved in a lengthwise manner. The main table is then moved lengthwise against the extension table. The table has two folded parts (3a, 3b) which are arranged with the main table.
