Abstract (en)  
[origin: EP1930526A2] The molded part (1) has a plugging receiver for an end section of a longitudinally grooved strip body for attachment to a wall (7) with an edge element (5) that engages the end section on the side way from the wall in a shape-locking manner. and two stops (6) that engage behind the wall side rear of the end section outside the longitudinal groove (9). The plugging receiver has at least one clamping element (12) between the two stops arranged transverse to the longitudinal groove and engaging the longitudinal groove.
