Abstract (en)

[origin: WO2007039542A1] A method for producing profiles, comprising a step of profiling a sheet metal strip to obtain a T profile, characterised in that a plurality of punchings are effected on the web of the T with first punches (6) to form pairs of parallel incisions of length L, said profile then being subjected to a further punching step with second punches (8) faced by dies, said second punches having a length L' greater than the length L of the first punches.
