Abstract (en)

The structure has a support (10) pivotable between end positions around a corpus-fixed axle (12) of a furniture. A self-retracting mechanism is provided in an end position of the support. The mechanism has a corpus-fixed part (34) and a support-fixed part (38). One of the parts has a tiltable bistable pre-tensioned crank lever (36), and the other part has a stop pin abutting against an arm of the lever. The pin is pivoted from a stable position over a dead center, to allow the pin to automatically pivot into another stable position.

Abstract (de)

Tragkonstruktion für Möbelfachböden, mit einem Träger (10), der um eine korpust feste Achse (12) des Möbels zwischen zwei Endlagen schwenkbar ist, gekennzeichnet durch einen Selbsteinzugmechanismus (34, 38) für den Träger in mindestens einer seiner Endlagen.
