Abstract (en)  
[origin: EP1933349A1] The overload switch gear (11) has an elastically active force transmission element (39) in force effective direction. The force transmission element is arranged between an actuating part (32) and a bimetal piece (25). The actuating force of the force transmission element is smaller than the opening force. The actuating force is transferred to the bimetal piece by pressing the push button. The opening force active in the warm state of the bimetal piece.
