Abstract (en)

[origin: DE102005047077A1] The washer has a washing container (2) comprising a handling area (3). A storage container (4) for goods to be cleaned is arranged in the washing container. Two wheels (9) are arranged at left and right sides of the storage container and are provided for moving the storage container. A connecting unit (8) is supported at the storage container in a rotatable manner, where one of the wheels is fastened at the connecting unit in a rotatable manner. The unit and the wheels are formed as single-piece from plastic molding and are connected with each other.
