Abstract (en)

[origin: EP1935460A1] The article has links for retaining or locking a foot or shoe and including a covering section (70) covering the foot or shoe. The covering section has a monoblock frame (120) and comfort element (140). The comfort element includes synthetic material e.g. polyurethane, molded on the frame. The frame includes beams and bridges forming a circumference around a traversing central opening.
