Abstract (en)

[origin: EP1935516A1] The safety workbench (1) comprises an inner working chamber (3) located in a housing (2) whose lower arrangement is formed beneath the working plane's (7) base enclosure (9). The base enclosure is double-walled with an inner wall (9a) and an outer wall (9b) that form an intermediate chamber (17). The walls have at least one opening (10) that is connected to a device to generate under-pressure.
