Abstract (en)
[origin: EP1936759A1] A three-way terminal block construction comprises a central body including a cover and a bottom, said central body defining a plurality of separate seats or recesses adapted to hold therein the respective clamp elements and electrical coupling elements for providing a connection between said clamp elements, thereby causing said clamp elements to be connected by pairs to define electrically connected clamp element pairs, each of said pair being electrically insulated from the other clamp element pairs.
