Abstract (en)

[origin: EP1939368A2] The method involves arranging a prefabricated reinforcement structure (62) for an end body in conjunction with a reinforcement structure (60) of structure. The reinforcement structure (62, 60) is connected to end of the body and the structure. A formwork (64, 66, 68, 70, 72) is arranged to a structure and the end body. The formwork and the structure of the body is filled cast concrete. The formwork and end structure of the body is removed.
