Abstract (en)
[origin: DE102005051768B3] A front roof section (11) is supported rotationally on right and left front guide ways (21) via bearings (20). A tail roof section (14) is supported on right and left rear guide ways (18) via swivel bearings (17). At the closed roof position, the swivel bearings are positioned on the rear ends of the rear guide ways. At the fully-opened position, the swivel bearings are positioned at the front ends of the guide ways, and the roof sections are stacked together at the vehicle rear.
