Abstract (en)  
[origin: EP1942237A2] The profile (1) has a base profile (2), which is fastened at a component, where an outer profile (3) is movably fixed by the base profile. The base profile has a slot shaped guidance (7), which opens into a storage area, where the guidance accommodates a fixing leg (5) of the outer profile. The fixing leg has an articulated joint in the form of a flexible section or a material tapering within the area of connection to a plastering leg, where an angle between the fixing leg and plastering leg is changeable.
