Abstract (en)  
[origin: GB2430969A] A fastener for fastening together first and second parts (10,11) of a fabric article. The fastener comprising a plurality of pairs of fastening elements, each pair comprising a male fastening element (2) secured to one of the parts of the fabric article and a female fastening element (3) secured to the other part of the fabric article, the male fastening element (2) being insertable into the female fastening element to detachably engage the male and female fastening elements. The male and female fastening elements of each pair of fastening elements are provided with matching identifying means (13) and the identifying means of the fastening elements of adjacent pairs of fastening elements are different to each other whereby the fastening elements of the adjacent pairs can be distinguished from each other. Each row of fastening elements on the article parts comprises alternating male and female elements.
