Abstract (en)

[origin: WO2007048731A1] The invention relates to aminoplast resin films comprising a paper impregnated with an aminoplast resin mixture, the aminoplast resin mixture comprising inorganic nanoparticles. The invention further relates to a process for the production of the aminoplast resin films. The invention moreover relates to laminates which comprise the aminoplast resin films according to the invention, decorative paper impregnated if appropriate, substrate material and, if appropriate, an impregnated backing layer.
