Abstract (en)  
[origin: EP1944429A1] The cover has a revision frame (6) and a revision cap (7), which is inserted into the revision frame. The revision frame has a circulating frame profile (11) for receiving frame frieze, which is formed as outer frame, where the frame frieze includes several plate strips. A distance strip (17) bridges an interspace, which remains between a base (1) and the frame frieze, where the distance strip is designed as a closed frame.
