Abstract (en)
Disclosed herein is a wall-mounted placer which can be installed in a convenient way, may be lifted along walls, and have a larger operation area. The wall-mounted placer according to the present invention comprises a pillar, supporting frames and a placing boom, with the pillar fitted through the supporting frames and the placing boom arranged at the top end of the pillar, wherein the supporting frames and a base provided at the bottom of the pillar are fixed to a wall by means of fixing devices.
