Abstract (en)
[origin: WO2007051645A2] The invention relates to a withdrawing or baking trolley comprising a frame and a plurality of withdrawing devices which are fixed to the frame on top of each other similar to tiers. Said withdrawing devices are designed such that the same can be automatically retracted and deployed. The invention further relates to an oven system, a withdrawing trolley feeding system comprising such a withdrawing or baking trolley, and an unloading mechanism for a withdrawing trolley.
