Abstract (en)

[origin: WO2007052959A1] Provided is an open mobile business supporting method and system for effectively supporting various business models desired by a contents/service provider by providing single interface that can integrally use various resources of a mobile communication system. Low-level function, which can be grouped as a unit function and performed in a mobile communication system, is selected among service logics of a CP/SP, and defined as a biz logic. The biz logic is performed according to the request of CP/SP by cooperating with a mobile communication system and various legacy systems. The result of performing the biz logic is returned to the CP/SP.
