Abstract (en)  
[origin: WO2007054526A1] The invention relates to a printing medium for producing a document in order to transmit at least one piece of information. Said printing medium comprises a printing area (12, 38) that is to be printed on as well as a data unit (14) which is used for storing and transmitting the information to an external unit (16). The data unit (14) can be activated remotely by the external unit (16).
