Abstract (en)

[origin: US2010038277A1] A blister pack and a method for packaging a blister in the blister pack are proposed. The blister pack 10 in this case comprises a base field 14 with at least one recess 16 or perforation 18 for removal of at least one product arranged in a blister 36. A bottom field 26 is connected to the base field 14. A closure field 30 is connected to the bottom field 26. The blister pack 10 is distinguished by a fixing tab 22 which is mounted on the base field 14 for the purpose of fixing at least one blister 36 that is to be packaged in the blister pack 10.
