Abstract (en)
[origin: WO2007054432A1] The invention relates to an iron comprising a spray device (1) and a liquid container (2, 3) that is connected to the spray device (1) via a liquid guide element (12), the spray device (1) having a non-return valve (13') containing a spring element (13'b) and a locking element (13'c). The invention is characterised in that the spring element (13'b) and the locking element (13'c) are configured as one piece.
