Abstract (en)

[origin: WO2007012999A2] The present invention provides a method for authorizing to use a content, comprising steps of: generating a pointer directing to a location where storing a policy of the use rights of the content; and associating the pointer with the content. The invention allows the owner of the digital content to authorize the digital content users to use the digital content in real time and flexibly, thus to protect the intellectual property right of the digital content owner over the digital content.
