Abstract (en)
[origin: DE102005057153A1] A second profiled element (PE) has a groove and a first PE has a spring to be inserted in the direction of a gap's width. Punched out of sheet metal, a linking part (5) has a rectangular base plate (6) with a width corresponding to a domestic appliance. Fastening clips (8) protrude over a front edge of the base plate with even gaps between each other.
