Abstract (en)

[origin: WO2007065593A1] The invention relates to a device (10) and a method for printing on cylindrical bottle closures (12) by means of a gravure printing method, comprising a feed device (14) for the bottle closures (12), with a cliché roller (18), provided with an inking station (20), a doctoring station (22) and a printing station (24), wherein the bottle closure (12) may pass the cliché roller (18) from the feed device (14) on a parallel axis and rolls off between the cliché roller (18) and a contact and guide device (36).
