Abstract (en)

[origin: WO2007054773A2] The present invention mainly relates to a control panel (1) for at least one electric household appliance of the electronically controlled type, such as, for example, a cooking oven (3). The control panel (1) comprises selection means, adapted to allow the user to select at least one programme and/or one parameter relating to the associated electric appliance, and/or display means, adapted to provide the user with at least one piece of information and/or one parameter relating to the associated electric appliance. According to the present invention, the control panel (1) is a module which is separate from the associated electric appliance and which is adapted to be in particular as a built-in assembly in a cabinet of a household kitchen, being the control panel (1) placed as regards to the associated electric appliance according to at least a first and a second configurations.
