Abstract (en)

[origin: WO2007066154A1] Security system which has a burglar alarm panel with passive infrared detectors, the outdoor bell, the magnetic catchers, a keypad, a gsm cellular modem, a remote control board and the surveillance camera with extra features. The surveillance camera warns us for who is getting closer to our protected property before they break in. The advantage of the system is that we are informed in real time and reliable with the multimedia message MMS that we receive to our mobile self phone so we have the ability to activate our burglar alarm system in the right way in case to prevent the break in of our protected property.
