Abstract (en)

[origin: DE202007002304U1] The construction has a pillar profile (1), a bar profile (2) and pressure-proof profiles (5, 6), where the profiles (1, 2, 5, 6) are manufactured from an electrically conductive material e.g. aluminum alloy. A set of lightning protection devices (13) realizes conducting connection between parts of pressure-proof profiles (5, 6), which adjoin with one another. The profiles (5, 6) are connected with one another in a mounted condition on a building.
