Abstract (en)  
Control means having a large number of switches (6,7,8,9,10) for controlling various vehicle units wherein a carrier has a hand rest (3,4) provided with a spherical surface for the palm of the vehicle driver's hand. An adjustment wheel (14,19) is provided for controlling a switching element (12,24), the adjustment wheel having a setting rim (14a,19a) which extends from the switching element carrier in a region which can be reached by the fingers of the hand resting on the hand rest (3,4). The hand rest includes a sensor (25) to detect the presence of a driver's hand.
