Abstract (en)

[origin: WO2007065707A2] The invention relates to liquid thermally hardening mixtures comprising: A) low-molecular weight polyols with at least three hydroxyl groups and a hydroxy group content corresponding to a theoretical OH-number of 800 to 1,900 mg KOH/g, B) compounds selected from the group of cyclic and acyclic C<SUB>9</SUB>- C<SUB>16</SUB> alkanes, functionalised with hydroxy groups or hydroxy groups and at least one thiol group and C) low molecular weight or oligomeric compounds with reactive functional groups (c1) complementary to hydroxy and thiol groups, methods for production and use thereof.
