Abstract (en)

[origin: WO2007007186A1] The invention concerns a method for inserting and locking at least two elastic mechanisms (40) in longitudinal housings (31) provided at one end of a bow (30), in particular a spectacle frame bow, including the following steps: providing on each elastic mechanism (40) an external thread, providing in each housing (32) corresponding to the external thread elastic mechanisms, and screwing each elastic mechanism in a housing.
