Abstract (en)

[origin: WO2007009574A1] Conventional operating elements are relatively complex to produce. The aim of the invention is therefore the production of an operating element which is simple and economical to produce. Said aim is achieved, whereby an interior formed by the housing (1) has the form of a spherical segment on the walls of which are arranged contacts and a contact support (3) is fixed to the lever (5) such as to run in said spherical segment.
