Abstract (en)
[origin: WO2007068349A1] Spark plug for igniting a combustible gas mixture in an internal combustion engine, comprising an ignition electrode (6), an electrical supply line (11), to which the ignition electrode is connected, a pipe housing (4) in which the electrical supply line (11) runs, and a ventilation channel (19) for discharging combustion gases from the pipe housing (4). The invention provides for the ventilation channel (19) for discharging the combustion gases infiltrating the spark plug (1) as leakage gases to run along the supply line (11).
