Abstract (en)

[origin: DE102005061990A1] The drive (1) includes a hydrostatic piston machine (12) with a store (16) for compression energy and a pressure limiting valve (19) to create a braking effect. There is a cooler (45) downstream of the pressure limiting valve. The drive also includes a hydraulic motor (35) to drive a cooler fan (33). The hydraulic motor is supplied with hydraulic fluid from the piston machine.
