Abstract (en)

[origin: DE102006021056A1] A method for applying a label to an object an activation adhesive layer is applied to the first face of the label forming the rear face in the labeled state. The label is stored in a label magazine, and is removal from the magazine by a removal pallet comprising an adhesive layer, and the activation adhesive layer is then activated by an activating agent and applied with its first face on to the object. An independent claim is included for a labeling installation.
