Abstract (en)  
[origin: WO2007068584A1] The invention relates to a household appliance, particularly a kitchen appliance, comprising at least one functional element (3, 1) with a top face (7). Said household appliance (1) is characterized in that the top face (7) of the functional element (3, 1) is made at least in part of a translucent material while at least one illumination device (16) which emits light at least in part in the direction of the top face (7) of the functional element (3, 1) is provided below the top face (7) in the household appliance (1). The invention creates a ceiling light and/or a room light in addition to the normal function of the household appliance (1).
